Manche Gartenbahn-Betreiber verstauen ihre Modellhäuser über den Winter im Haus. Damit nicht zuviel Stauraum beansprucht wird, besteht die Möglichkeit, dieses Modell durch Entfernen der Eckverbindungsstifte zu demontieren. So bleiben wenige, sperrige Wand-, Dach- und Bodenteile übrig. Achten Sie in diesem Fall darauf, daß z. B. Ausschmückungsteile (Bänke, Schränke, Öfen, Holzstapel etc.) entweder am Boden oder an den Wänden festgeklebt werden und nicht an beiden Stellen. Sonst lassen sich die Hauptteile nicht mehr trennen. Überlegen Sie einfach nochmals die einzelnen Schritte vor dem Zusammenkleben.

Some outdoor model operators store their model houses indoors over the winter months. To save space, it is possible to dismount this model by removing the corner connection pins. Few bulky wall, roof and floor parts will thus be left over. In this case, see to it that e. g., decoration parts (benches, cabinets, stoves, wood stacks, etc.) will be glued either on their floor or on their walls, but not on both places. Else, the main parts can no longer be separated. Just reconsider the individual steps once more, before gluing them together again.

Certains exploitants de chemin de fer de jardin rangent leurs bâtiments miniatures à l'intérieur de la maison pendant l'hiver. Pour réduire l'encombrement, il est possible de démonter le modèle en enlevant les assemblages angulaires. Il ne reste alors que peu de pièces murales, de toiture et de sol encombrantes. Veiller dans ce cas que p. ex. les pièces de décoration (bancs, armoires, fours, piles de bois etc.) soient collées soit au sol ou sur les murs et non pas aux deux endroits. Sinon les pièces principales ne peuvent plus être séparées. Veuillez donc avant le collage bien réfléchir aux opérations à effectuer.
